finding out things keeping up to date
mentors, networking

dealing with daily tasks
reading, observing
conversations meetings

Note:
using informal media in formal learning is not the same as "informal learning".
Systems cannot "manage inforthe mal learning" only use of informal media, which is not the same thing.

Susie's journey

Susie represents a learner growing up within this vision. She has difficult decisions to make at key stages throughout her life as a learner and will need support and guidance. However, Susie will have the benefit of a lifelong learning record or e-Portfolio to assist her in making decisions. Her school, college, employers and friends will support her to maintain a valuable record and to make effective use of it throughout her life, to apply for courses and jobs as well as make informed planned decisions to ensure she leads a fulfilled career.

The Social Economy

Inovace ve vzdělávání

Education not only needs new ideas and inventions that shatter the performance expectations of today's status quo; to make a meaningful impact, these new solutions must also "scale", that is grow large enough, to serve millions of students and teachers or large portions of specific under-served populations.

Here's a stat worth knowing: In the UK, 63% of men who finish short-term prison sentences are back inside within a year for another crime. Helping them stay outside involves job training, classes, therapy. And it would pay off handsomely -- but the government can't find the funds. Toby Eccles shares an imaginative idea for how to change that: the Social Impact Bond. It's an unusual bond that helps fund initiatives with a social goal through private money -- with the government paying back the investors (with interest) if the initiatives work.

Toby Eccles has created a radical financial instrument that helps private investors contribute to solving thorny public problems. [Full bio >](#)
