

## Zpřístupňování informačních zdrojů včetně šedé literatury v Zeměměřičské knihovně

Drozda, Jiří; Synková, Veronika 2014

Dostupný z http://www.nusl.cz/ntk/nusl-175810

Dílo je chráněno podle autorského zákona č. 121/2000 Sb. Licence Creative Commons Uveďte původ-Zachovejte licenci 4.0

Tento dokument byl stažen z Národního úložiště šedé literatury (NUŠL).

Datum stažení: 29.05.2024

Další dokumenty můžete najít prostřednictvím vyhledávacího rozhraní nusl.cz .

# KONFERENCE O ŠEDÉ LITERATUŘE A REPOZITÁŘÍCH 2014

# Access to all information sources including grey literature in Surveyor library

Jiří Drozda, Veronika Synková

Research institute of Geodesy, Topography and Cartography Zdiby, Czech Republic

# **Surveying Library of VÚGTK**

- branch library with specialized and unique library Fund focused on geo-informatics
- the library, which a few years was ago threatened to extinction
- the library, which wants to transform into a modern information centre
  - the scope of the provided information
  - the quality of the provision of information
  - the availability of information about the library resources

# Original information resources location

Hard copy information/documents

Digital resources

Web

Net and PC employees

Card catalogues

Printed fund

Library catalogue Tinlib Periodicals (table) Kramerius Digitalfund (variable placement)

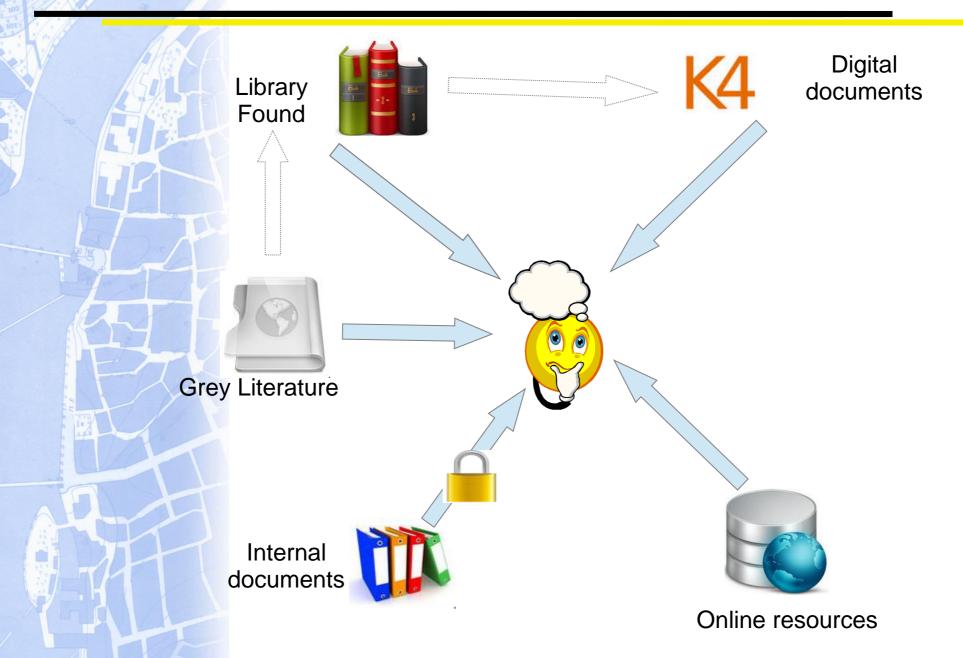

- travel reports
- research reports
  - annual reports

Project outputs
Research data
Training materials
Sectoral directive
Internal documents

. . .

# **Fragmented Resources**

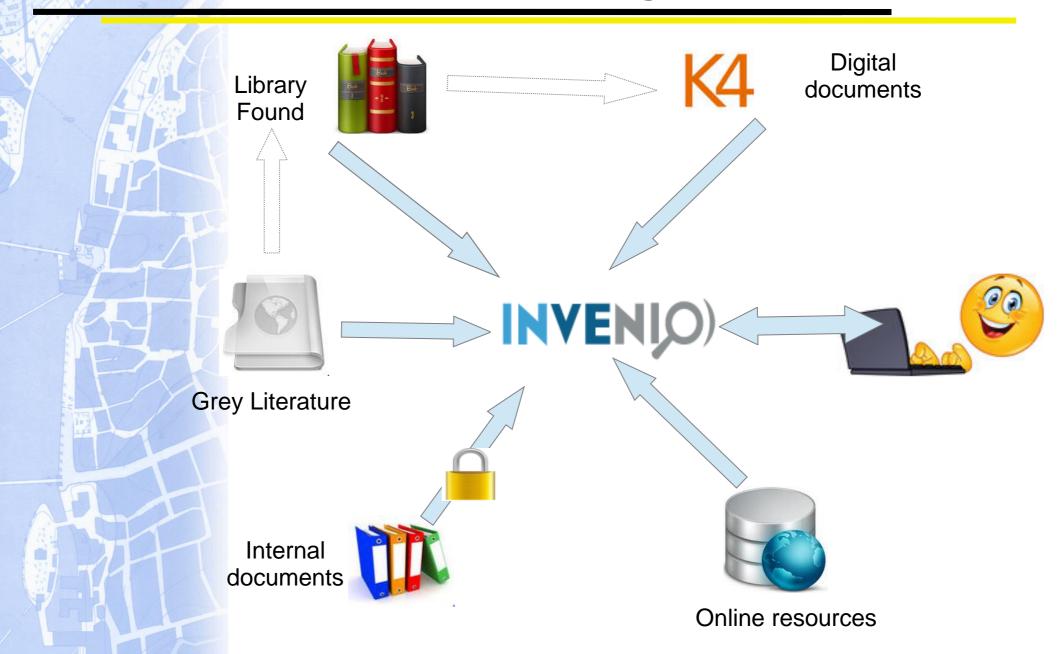

## **INVENIO**

- cooperation agreement with the National Technical Library in the National Gray Literature Repository (NUŠL)
  - information system INVENIO
  - is developed by the European Organisation for Nuclear Research (CERN) in Geneva
  - is the open source system
  - NUŠL offers a preset system for grey literature
  - CERN uses INVENIO as the library system from 2012
- Invenio in the Surveying library
  - storage of all information resources in a single place
  - common interface and a single access point search of all information resources
  - the library system

# The resources of the library in the INVENIO system

# INVENIO Implementation in the library

- the definition of custom collections/folders
- data embedding and data importing
  - conversion and import of TinLib data
  - records with links to Kramerius system
  - online magazines and jourmals
  - grey literature
  - internal documents
- adding and editing
  - the necessary fields of MARC21 and catalogue templates
  - search indexes
  - previews records
  - •
  - activation of the BibCirculation module
    - loan services-registration of readers, borrowing, orders, ...
    - the readers service in the Web accountt
    - Czech language localization

# **Custom collections/folders** in INVENIO

60. výročí založen
