Pushing SKOS

ELAG 2018

06.06.2018, Prague

Felix Ostrowski, graphthinking GmbH

Adrian Pohl, hbz

Controlled Vocabularies (and other authority data)

- Central to library and other knowledge organization processes for a long time
- Commonly used across many different sources, implicitly linking resources about the same topic
- Come along in very different forms, from PDF documents and XML to Excel

ISCED fields of education:

0 General programmes

01 Basic programmes

Basic general programmes pre-primary, elementary, primary, secondary, etc.

08 Literacy and numeracy

Simple and functional literacy, numeracy.

09 Personal development

Enhancing personal skills, e.g. behavioural capacities, mental skills, personal organizational capacities, life orientation programmes.

1 Education

14 Teacher training and education science

Teacher training for pre-school, kindergarten, elementary school, vocational, practical, non-vocational subject, adult education, teacher trainers and for handicapped children. General and specialised teacher-training programmes.

Education science: curriculum development in non-vocational and vocational subjects. Educational assessment, testing and measurement, educational research, other education science.

2 Humanities and arts

21 Arts

Fine arts: drawing, painting, sculpture;

Performing arts: music, drama, dance, circus;

Graphic and audio-visual arts: photography, cinematography, music production, radio and television production, printing and publishing;

Design; craft skills.

22 Humanities

Religion and theology;

Foreign languages and cultures: living or 'dead' languages and their literature, area studies;

Native languages: current or vernacular language and its literature;

Other humanities: interpretation and translation, linguistics, comparative literature, history, archaeology, philosophy, ethics.

*So, where can I find those vocabularies?
How can I know what a certain term
means?*

Simple Knowledge Organization System

- A common vocabulary for describing vocabularies on the web
- Dereferencable and thus self-descriptive using HTTP-URIs
- Machine readable by using RDF, (ideally) human readable by using HTML

```
<A> rdf:type skos:Concept ;

First ingredient: static site generator to publish SKOS as HTML...

The screenshot shows a web browser displaying a JSON-LD document. The document is a JSON object with the following structure:

```

{
  "notation": "00",
  "topConceptOf": {
    "@id": "https://w3id.org/class/esc/scheme"
  },
  "@id": "https://w3id.org/class/esc/n00",
  "narrower": [
    {
      "@id": "https://w3id.org/class/esc/n003"
    },
    {
      "@id": "https://w3id.org/class/esc/n001"
    },
    {
      "@id": "https://w3id.org/class/esc/n002"
    }
  ],
  "scopeNote": {
    "@value": "General education programmes and qualifications which cover a broad range of subjects with little or no specialisation in a particular field or fields will typically be classified within the broad field 00 'Generic programmes and qualifications'",
    "@language": "en"
  },
  "@context": {
    "publisher": {
      "@id": "http://publications.w3id.org/terms/publisher"
    },
    "@vocab": "http://www.w3id.org/terms/esc",
    "description": {
      "@id": "http://publications.w3id.org/terms/description"
    },
    "license": {
      "@id": "http://publications.w3id.org/terms/license"
    },
    "title": {
      "@id": "http://publications.w3id.org/terms/title"
    },
    "issued": {
      "@id": "http://publications.w3id.org/terms/issued"
    }
  }
}

```

Overlaid on the bottom right is a terminal window showing the output of a command:

```

public/w3id.org/isced/1997$ ls
level0.de.html  level1.ttl      level3.json     level5.en.html  scheme.de.html
level0.en.html  level2.de.html  level3.ttl      level5.json     scheme.en.html
level0.json     level2.en.html  level4.de.html  level5.ttl      scheme.json
level0.ttl     level2.json     level4.en.html  level6.de.html  scheme.ttl
level1.de.html  level2.ttl      level4.json     level6.en.html
level1.en.html  level3.de.html  level4.ttl      level6.json
level1.json     level3.en.html  level5.de.html  level6.ttl

```

... and [JSON-LD](#) (and [Turtle](#))

Why a static site generator?

- SKOS is usually read much more often than written
- Apache can do all the Linked-Data-Yada-Yada
- DB-based solutions are already out there

*But is it really all that useful to only know
what a topic means and not which
resources about that topic are out there?*

If you take away only one thing:

To drive **OER adoption**,
communities of practice are key.

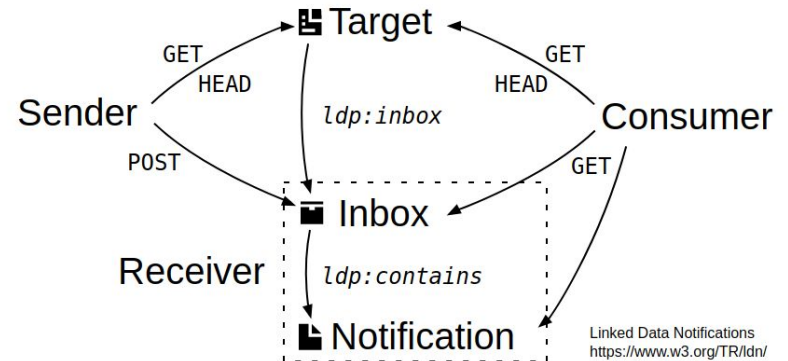

Topic-oriented technology can
help foster them.

[TOOLS - Topic-Oriented Open Learning platforms, Pim Bellinga & Paul Gobée at OE Global 2018, Delft](#)

Linked Data Notifications

- Simple protocol to publish notifications on the Web
- No further specification of the payload
- Pull approach for retrieval of notifications from an inbox

... and send updates to that inbox!

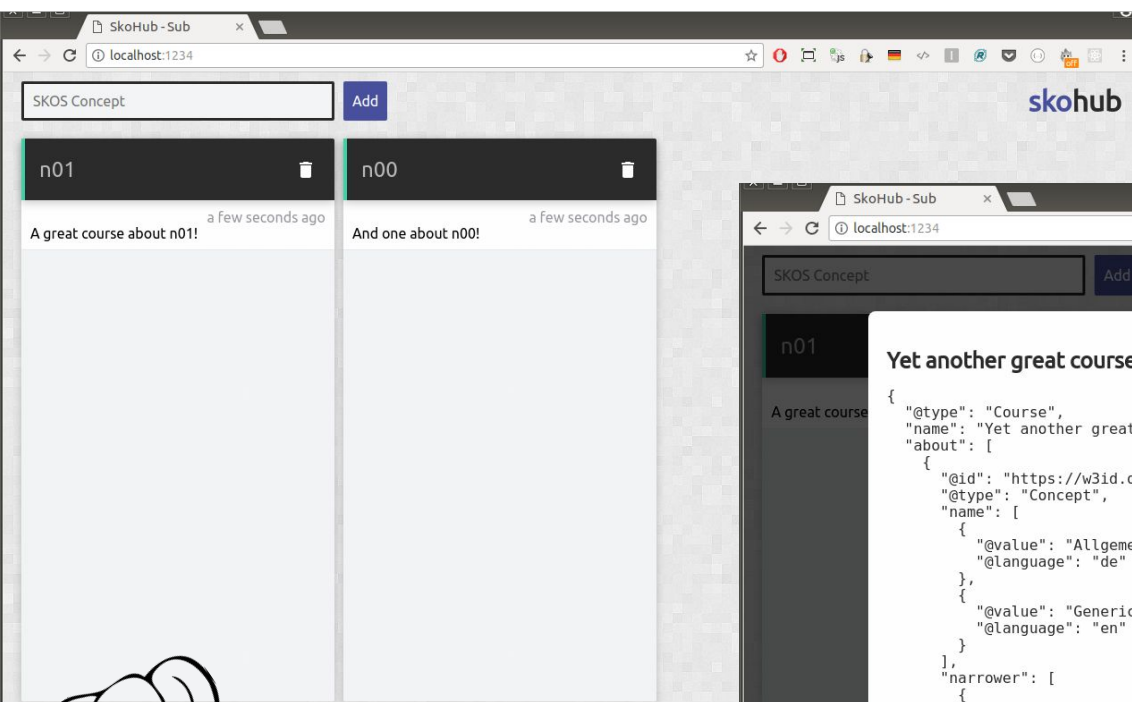

How often should a consumer check for new notifications? How long should notifications be saved?

WebSub

- A simple protocol to communicate arbitrary content from a publisher to a subscriber
- No further specification of the publishing mechanism
- Push approach for retrieval of content

<https://www.w3.org/TR/websub/>

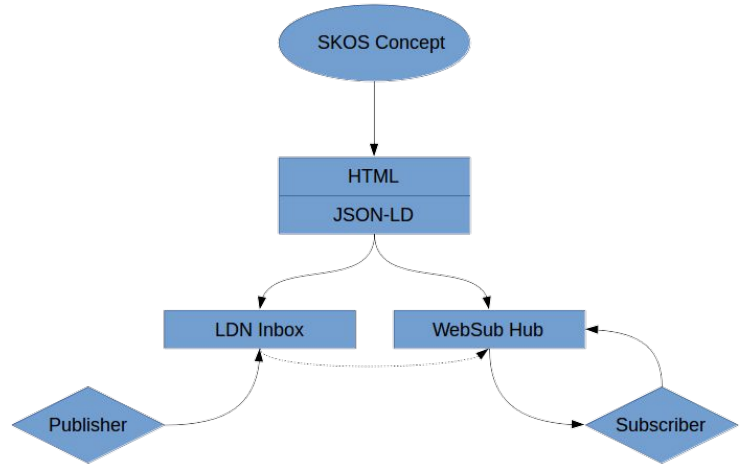

Final ingredient: provide the means to subscribe for update about topics

skohub (simple knowledge organization hub)

internal prototype

- [Publication](#) of [SKOS vocabularies](#) as static [JSON-LD](#) and [HTML](#)
- Provision of an [inbox](#) for retrieval of [metadata](#)
- Forwarding of incoming data to the corresponding [subscriber](#)

Aggregators serve as a crucial but transparent layer in the network.

And hubs!

[One flew over the cuckoo's nest, Ruben Verborgh at Europeana Tech 2018, CC-BY](#)

The *Paradox of Freedom*: you can only be free if you follow rules.

Decentralization means making our own choices.

**Unless we agree on some basic things,
no one will see the result of our choices.**

Agreement can be layered:

100% agrees on a small set (*labeling, authorship, ...*)

80% agrees on a larger set (*places, dimensions*)

5% agrees on many smaller sets (*sizes, colors, ...*)

[One flew over the cuckoo's nest, Ruben Verborgh at Europeana Tech 2018, CC-BY](#)

Minimum viable record?

[Every Collection is a Snowflake, George Oates at SWIB17](#)

Many open questions...

- What about authorization?
- What about [spam](#)?
- What about [advanced querying](#)?

- And all of yours of course!

[@acka47](#) and [@literarymachine](#) are
happy to continue the discussion!
