CRM Reports

- Flexible report construction
- Data from different modules
- Export to CSV and PDF
- Import to other tools for further analysis, visualisation and business intelligence

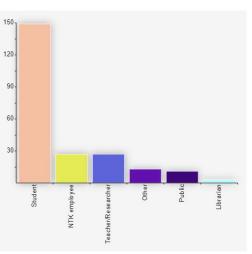

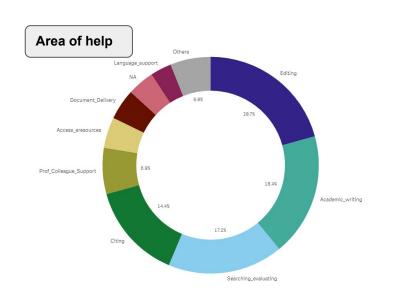

CASE STUDY #1: Consultations in 2018 (n=230)

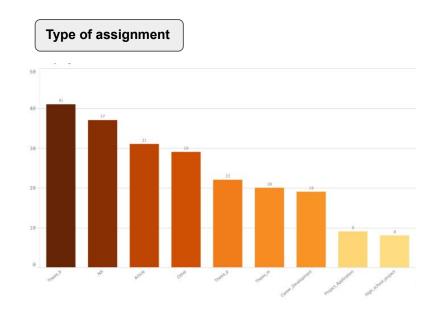

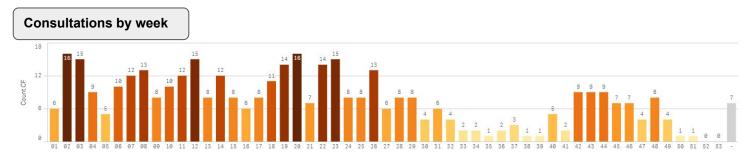

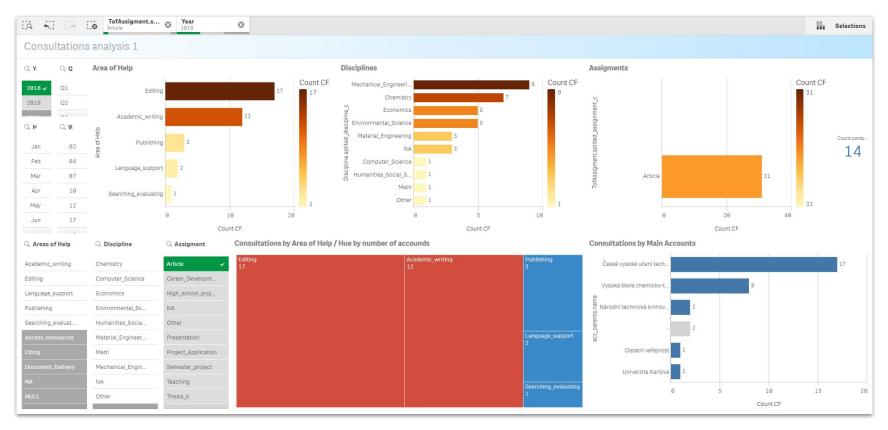

CASE STUDY #1: Consultations in 2018 (n=230)

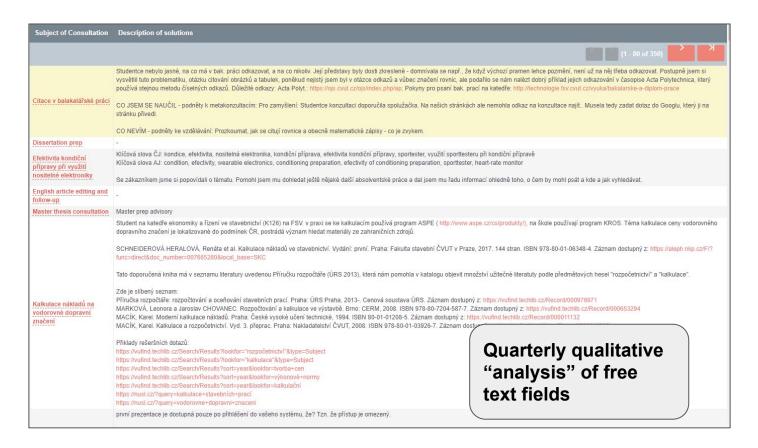

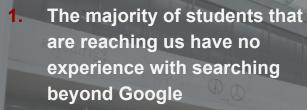

CASE STUDY #2: Publishing Support in 2018 (n=35)

CASE STUDY #3: Understanding the Landscape

- 2. The Bachelor's thesis is often the very first experience with academic writing for them
- 3. Many students don't know how to reach and approach their mentors
- 4. The scope of NTK information support team is much wider than "traditional" information support
- 5. The NTK supplements the functions of Academic Writing Center in campus

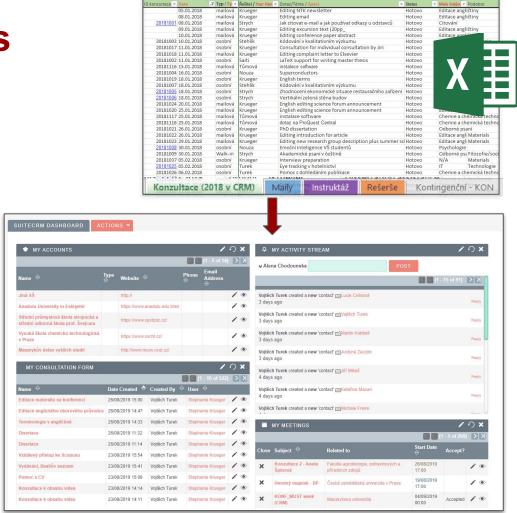

Professional Development

- Enhance peer-to-peer personal knowledge exchange according to the principle of "vicarious learning"
- Share best practices as well as failures
- Support professional development of junior colleagues

Improving Workflows

- Fewer errors and gaps in records and efficient data cleaning
- Better standardization (e.g., organizations and users naming policies, mandatory fields)
- Flexible access rights
- Everything "under one roof"
- Quick and easy reports and ability to work with big data (N rows, K columns)

NTK CRM Vision

Requirements

- Free and open source tool
- Avoid programming as much as possible
- Be able to develop new modules specific for academic support instead of modifying existing

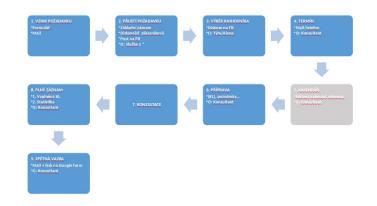

Philosophy or principles

- Single rules, single naming, single responsibility, clear data
- Sustainable and agile development (prototyping, testing)

NTK CRM Agile Development

- **1.** Determine and discuss goals
- Make process analysis of workflows
- **3.** Describe the data we want to collect
- **4.** Prototype and test with users
- **5.** Choose software
- 6. Create new module in CRM and test it with users
- 7. Analyze the results and implement improvements
- **8.** Approve the module and move it in production

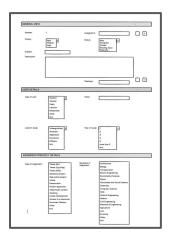

Consultation Form History

1st Generation

Word sheet to capture details about users and interactions.

2nd Generation

Excel sheet with drop down menus and line view of data.

CRM Form Prototype

CRM Form

Future Development

Global goal

Analysis and estimation of users' needs over the years (according to GDPR)

Next steps

- Integrate the consultation feedback surveys
- **2.** Create new module for instructional services
- 3. Extend internal knowledge base
