# Early-career researchers on Plan S

## Joint Statement on Open Access for Researchers via Plan S

[Plan S](#) calls for all scientific publications on the results of research funded by national and European research councils and funding bodies to be published in compliant [Open Access](#) journals or on compliant Open Access platforms by 01 January 2020. The plan was initiated by the Open Access Envoy of the European Commission and Science Europe and will be implemented by cOAlition S. The coalition currently includes [11 national funders](#) and is supported by the European Commission and European Research Council. Plan S consists of [10 principles](#) to be enacted by coalition members. We, representatives of early-career and senior researchers in Europe, commend cOAlition S for taking this bold and ambitious step towards Open Access and offer our support as well as comments on implementing Plan S.

## Joint Statement on Implementation Guidance for Plan S

[Plan S](#) is an initiative by [cOAlition S](#) to achieve full and immediate Open Access to scientific publications after 01 January 2020 in Europe. At the heart of the plan are [10 principles](#) currently being developed into a set of [implementation guidelines](#). We, representatives of early-career and senior researchers across Europe, have already [commented on Plan S](#) and hereby reaffirm our general support and offer our views on the implementation guidance.

We commend cOAlition S for addressing initial concerns and for the [open consultation](#) on the guidance. There are now three clear routes to compliance via either author-accepted manuscripts or versions of record of publications. It is crucial, however, that cOAlition S ensures that these routes are viable through appropriate regulations, funding, and support.

# 10 principles of Plan S

- (1) authors/institutions retain **copyright** & default **CC BY**
- (2) robust **requirements** for quality journals/platforms
- (3) incentives & **support** to develop journals/platforms
- (4) **fees** covered by funders/ institutions not researchers
- (5) **diversity** of business models & **transparent** standard fees
- (6) **alignment** of policies & strategies for transparency
- (7) recognition that more time is needed for **books**
- (8) hybrid models allowed via transformative **agreements**
- (9) funders will monitor & sanction **(non-)compliance**
- (10) funders will **assess** research on intrinsic merit of works

## 10 Principles of Plan S

Universiteit  
Leiden

[@gtoneill](mailto:@gtoneill)  
[g.t.oneill@hum.leidenuniv.nl](mailto:g.t.oneill@hum.leidenuniv.nl)

# Implementation of Plan S

	Open Access publishing venues (journals or platforms)	Subscription venues (repository route)	Transition of subscription venues (transformative arrangements)
Route	Authors publish in an Open Access journal or on an Open Access platform.	Authors publish in a subscription journal and make either the final published version (Version of Record (VoR)) or the Author's Accepted Manuscript (AAM) openly available in a repository.	Authors publish Open Access in a subscription journal under a transformative arrangement.
Funding	cOAlition S funders will financially support publication fees.	cOAlition S funders will not financially support 'hybrid' Open Access publication fees in subscription venues.	cOAlition S funders can contribute financially to Open Access publishing under transformative arrangements.
