Enhanced Publications Project (EPP)

The **definition of an enhanced publication** is borrowed from the DRIVER-II project, "a publication that is enhanced with three categories of information: 1) research data, 2) extra materials, and 3) post-publication data".

EPP Partnering Members and Organizations

Christiane Stock,
INIST-CNRS, France

Debbie Rabina,
Pratt Institute, School of Information and Library Science,
USA

Laurents Sesink, DANS
Data Archiving and Networked Services, Netherlands

Dominic Farace and Jerry Frantzen, GreyNet, Netherlands

A Phased Approach

---

1. Project Proposal and Formation of the Team

2. Design of the Questionnaire and Author Survey

3. Criteria for the commentaries and selection of eligible conference preprints

4. Acquisition and Submission of research data

5. Data upload and cross-linking

6. Draft of enhanced publication guidelines and the design of a future workflow

Some Preliminary Results:

Number of (co)authors in the GL-Series	Number of first authors in the GL-Series	Number of EPP Survey Recipients	Number of EPP Survey Respondents
286	162	95	37

Respondents by Geographic Region

Asia
16%

North America
38%

Europe
46%

N=37

**Question 1:** Does one or more of your conference papers in the GL-Series base its findings on empirical or statistical data?

Question 2: If so, would these data and/or datasets still be available in part or whole for archiving purposes?

Data and datasets still available in part or whole for archiving purposes

No 39%

Yes 61%

Yes
No

N=28

GreyNet

Question 3: Are you aware of any existing data archives or data initiatives in your country related to grey literature or other scientific publications?
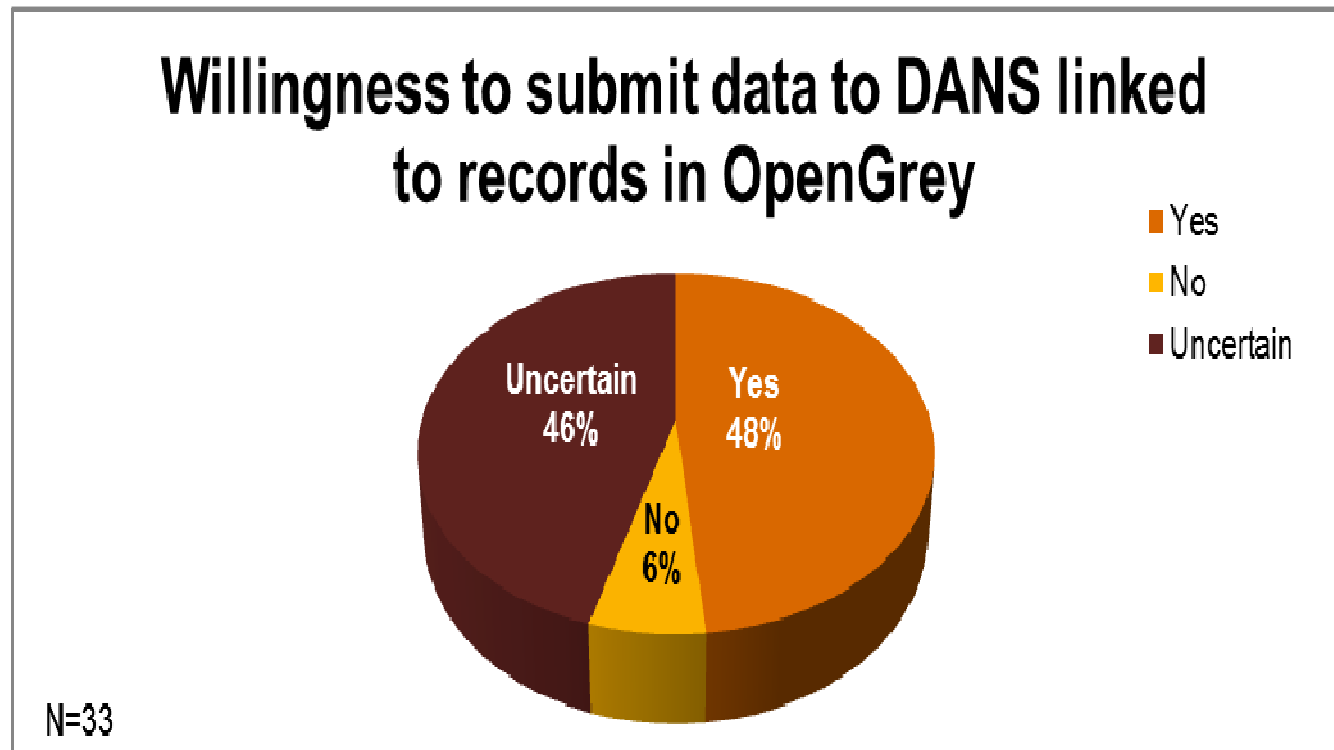

Question 4: If so, please provide the name(s) and corresponding URL(s) here?

Types of Responses

- Specific
- General
- Non Applicable

Non Applicable 17%
General 11%
Specific 72%

N=18

Question 5: Would you be willing to submit data, datasets, or subsets to DANS (Data Archiving and Networked Services) that would in turn be linked to their existing metadata records in the OpenGrey Repository?
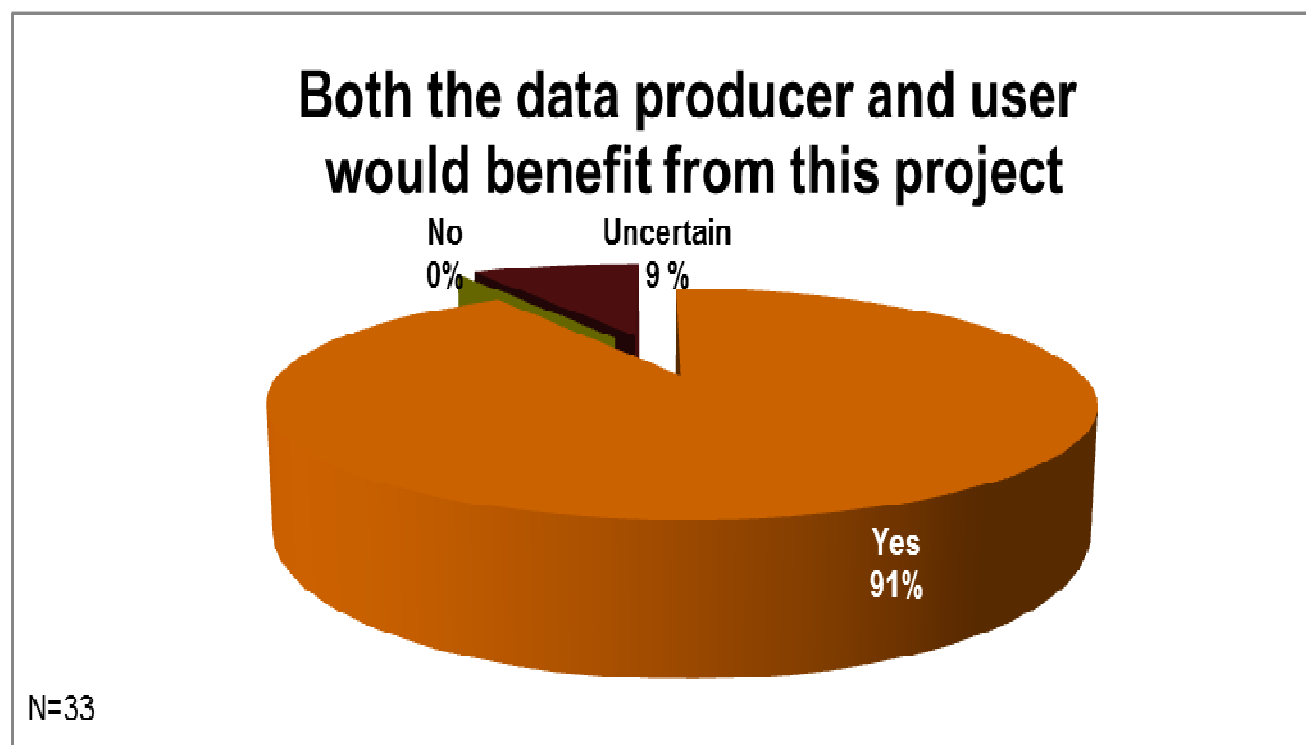

Question 6: If so, would you prefer that GreyNet entered your retrospective data and/or datasets in DANS, or would you prefer to do this directly?

Preference of retrospective data entry in DANS

- GreyNet 38%
- Author 21%
- No Preference 41%

N=29

Question 7: Do you agree that both the data producer as well as the data user stand to benefit by submitting data, datasets, or subsets for this Enhanced Publications Project?

Both the data producer and user would benefit from this project
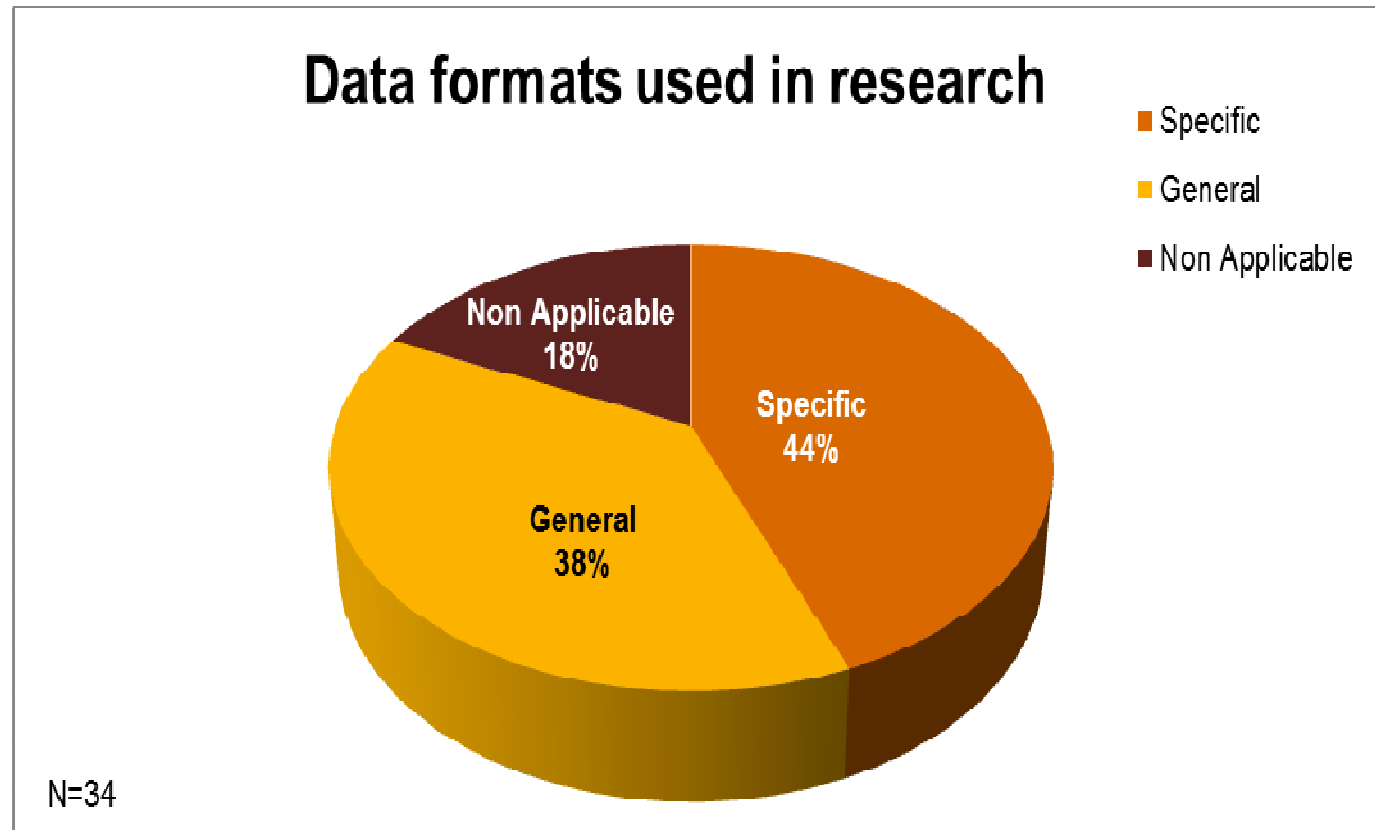

No 0%
Uncertain 9%
Yes 91%

N=33

Question 8: Do you think that guidelines for data entry should be available for future conference papers and other types of grey literature?

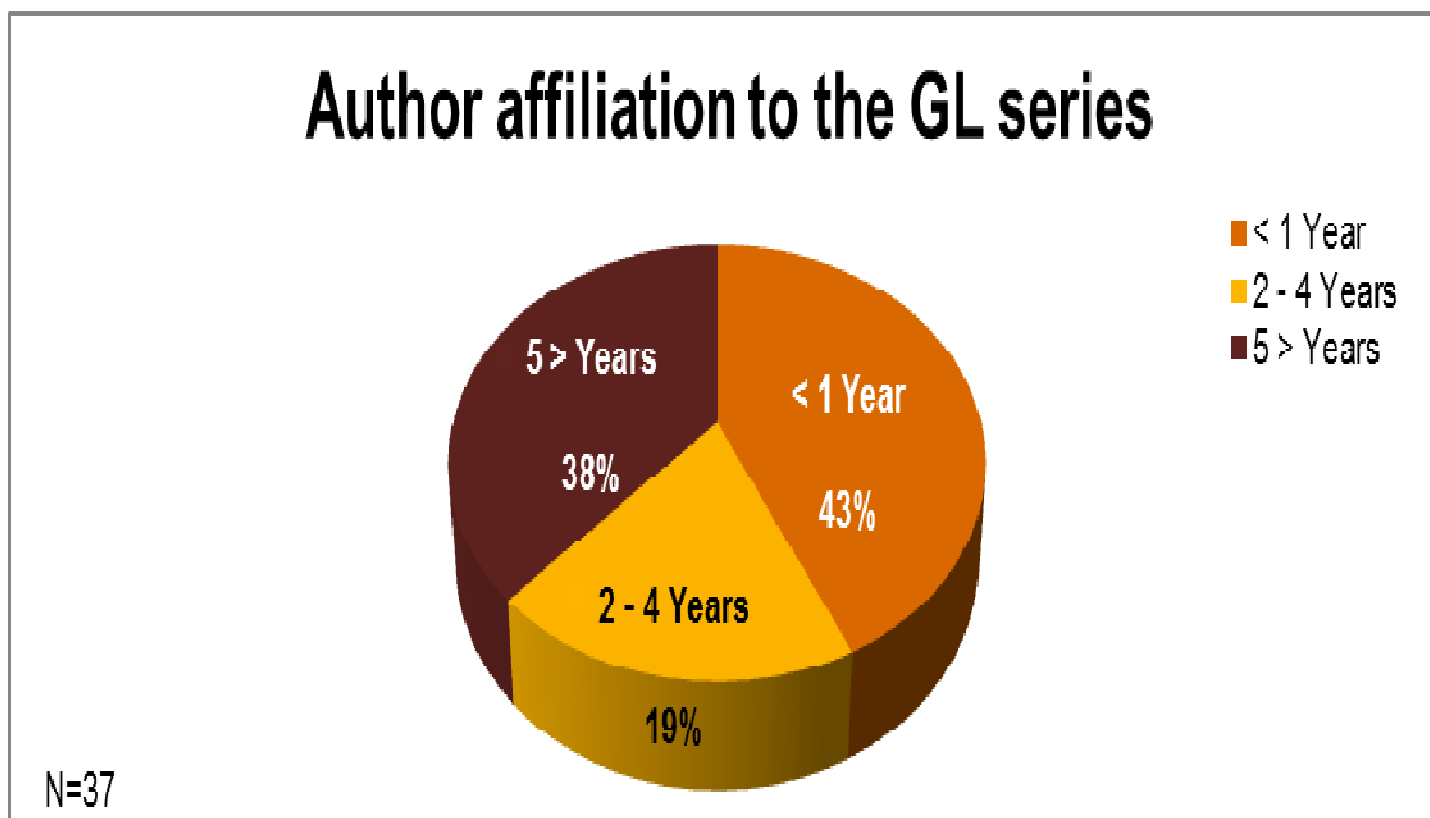

Guidelines are needed for data entry

No 0%
Uncertain 6%
Yes 94%

N=33

Question 9: What kind of data and data formats have you used/are using in your research?

Question 10: Please enter your name, email address, and any other comments or recommendations for this Enhanced Publications Project?

Thank You!

**Your comments and recommendations
for this project are most welcome!**
